Guidelines for stories are:

1. Real life stories about you or someone you know that occurred anywhere from Kaena Point to Kahuku Point. We intend to share and preserve some of the amazing past from this unique and diverse side of the island.
2. Make sure that you introduce the character(s). Tell your story in a way that will make the reader cry, laugh or get goose bumps. Don't leave anything out — how did you feel?
3. **Story Categories include:** Kapuna and family, chicken skin, cane fire, road trips, artist, musicians, fishing, diving, surfing, canoe, sailing, hunting, paniolo, Hurricane Iwa and other big storm stories, night life before TV (entertainment wise) and anything else that needs to be included.
4. Above all, let it come from your HEART! Your story is important!
